

BECAUSE EVERY CUP COUNTS

Nespresso's sustainability promise is based on the conviction to act responsibly along the entire value chain and to take relevant ecological and social aspects into account.

The Positive Cup is an impact framework that guides Nespresso's priorities and actions and helps achieve positive change in the most critical areas across the value chain.

By 2050, Nespresso has set itself the goal of becoming a Net Zero company across the entire supply chain and product life cycle in line with the SBTi standards.

ENJOY COFFEE RESPONSIBILITY

Nespresso

Vertuo Pop Machine

Bring barista-style coffee into your home with the Nespresso Vertuo Pop, the compact and stylish coffee machine designed to suit every lifestyle. Featuring a vibrant, modern design and innovative Vertuo technology, it delivers exceptional coffee quality at the touch of a button.

Using Centrifusion™ technology, the Vertuo Pop reads the barcode on each capsule and automatically adjusts brewing parameters to create the perfect cup every time, from smooth Espressos to generous Mugs. Enjoy a rich crema, bold aromas, and consistent flavour with minimal effort.

Its compact footprint makes it ideal for kitchens of any size, while the simple one-button operation ensures a convenient and hassle-free coffee experience. Compatible exclusively with Nespresso Vertuo capsules, the machine offers a wide range of coffee blends and cup sizes to suit every taste.

Vertuo Next Machine

Experience the future of coffee with the Nespresso Vertuo Next, a sleek and innovative coffee machine designed to bring exceptional coffee quality to every cup. Combining modern design with advanced brewing technology, the Vertuo Next offers unparalleled versatility, allowing you to enjoy a wide range of coffee styles at the touch of a button.

Powered by Centrifusion™ technology, the machine reads each capsule's unique barcode and automatically adjusts brewing parameters, including water volume, temperature, and extraction time, to deliver optimal results. From rich Espressos and Double Espressos to Gran Lungos, Mugs, and larger coffee servings, every cup is crafted with a smooth crema and full-bodied flavour.

Vertuo Lattissima Machine

Experience barista-style coffee and milk recipes at the touch of a button with the Nespresso Vertuo Lattissima. Combining Nespresso's innovative Vertuo coffee technology with an integrated milk system, this premium machine delivers a variety of coffee sizes, from rich espressos to large mugs, all topped with perfectly textured milk foam.

Using barcode-reading technology, the Vertuo Lattissima automatically adjusts brewing parameters for each capsule, ensuring optimal extraction, aroma, and crema in every cup. The one-touch milk recipes make it easy to prepare cappuccinos, lattes, and other milk-based beverages with professional-quality results. Its sleek, modern design, removable milk container, and easy-clean system make it both stylish and convenient for everyday use.

Nespresso Lattissima One

Enjoy the perfect balance of espresso and milk-based coffee with the Nespresso Lattissima One, an elegant and compact machine designed for coffee lovers who appreciate convenience without compromising on quality. Featuring an innovative single-serve milk system, the Lattissima One automatically froths the exact amount of milk needed for your chosen beverage, reducing waste while delivering consistently delicious results.

With a simple one-touch operation, you can effortlessly prepare espresso, lungo, cappuccino, and latte recipes in just moments. The machine's 19-bar pressure pump ensures optimal extraction, unlocking the rich aromas and flavors of every Nespresso capsule, while creating a smooth, velvety crema.

Its sleek, space-saving design, premium finish, and easy-to-clean components make the Lattissima One a stylish addition to any kitchen, office, or coffee corner.

Key Features:

- One-touch preparation of espresso and milk-based coffee recipes
- Innovative single-serve milk system to minimize waste
- 19-bar pressure pump for barista-quality coffee
- Fast heat-up time for quick beverage preparation
- Compact and elegant design
- Adjustable cup support for various cup sizes
- Removable milk container for easy cleaning
- Automatic shut-off and energy-saving features

Perfect for those seeking a simple, stylish, and convenient way to enjoy café-quality cappuccinos and lattes at home or in the office.
