## COFFEE THAT UNDERSTANDS MILK

TO COMPLEMENT YOUR COFFEE EXPERIENCE, WE'VE DESIGNED TWO NEW PERMANENT COFFEE BLENDS WHICH HAVE BEEN SPECIALLY CRAFTED TO BE ENJOYED WITH MILK

To create the two new additions to the **CREATIONS** coffee range, **Nespresso** first had to understand the characteristics of milk and its flavour profiles when paired with coffee. The unique blends were designed from a combination of specially chosen beans from across the globe, with a refined process of roasting and grinding to extract the individual qualities and notes of each bean.

The result is **BIANCO DELICATO & BIANCO INTENSO**, two new coffees crafted specially for your cappuccino or lattes, just add milk to enjoy.

# BECAUSE COFFEE CAN BE A FORCE FOR GOOD

FROM THE CHERRY TO THE  
CUP - AND BEYOND

**Nespresso** together with the Rainforest Alliance initiated the AAA Sustainable Quality™ Program in 2003.

Our goal was to build long-term and direct relationships with coffee farmers from the world's best coffee growing regions, and improve their productivity, sustainability as well as coffee quality.

As of 2021, we work with 110,000 coffee farmers in over 14 coffee growing countries. We source 95% of our permanent coffee through the AAA Sustainable Quality™ Program.

Find out more about our sustainability initiatives on our [website](#).
